Hi Catherine,

The attached is the ESA team's draft proposal for refinements to the biological evaluation methods. I just received it so I have not opened it. The team plans on briefing EFED management this afternoon. When you get back let's both of us get together and try to decide how much you should be involved in this. Depending on what is in the draft now we may decide to skip your involvement. I really need you to focus on ERB 4's core work, peer review, mentoring, and leading our Branch!!

Talk with you soon.

Jean
